

Standard Finishes: Aluminum Roof Panels

Brasco offers the flexibility of mix-and-match finishes for shelter frames, roofs and accessories. Select from the below colors for pre-finished powder coated and anodized aluminum roofs. Samples are available upon request.

For shelter models with fascia, the shelter's frame and fascia will be powder coated or anodized in the same finish. Aluminum roof panels however are pre-finished and available in the colors below.

To the right is a Slimline series bus stop shelter with a standing seam aluminum hip roof with Aged Copper roof panels. The shelter's frame, fascia and grillwork are powder coated in Pine Green.
